RETAIL PRICE LIST 2017.2

SYNTHETIC RATTAN COLORS:

C1 SABBIA

C2 WENGE'

C3 GRIGIO

Attention: All products are made with an aluminum frame coated by a colour finishing according to the fibre colour, woven by polyethylene fibre, therefore they are suitable for an intensive outdoor use.

FABRICS AVAILABLE:

The lose cover can be made either of fabric chosen among our fabric samples or made of customer fabric supplied by customer:

FABRIC SAMPLES

PARA' TEMPOTEST® (IT), SUNBRELLA (USA) ®, GIOVANARDI IRISUN LIVING® (IT): all fabrics are made of acrylic fibre 100%, coated with a 3M Teflon treatment. They are anti mildew, anti spot, UV ray proof, water and oil proof, suitable for an intensive outdoor use. They have a soft toch so they can be used for indoor too.

CUSTOMER FABRIC

The quantity of customer fabric necessary for making the cushions will be calculated by our company according to the characteristics that will be communicated regarding: PLAIN COLOUR, STRIPES, FANTASY, FABRIC HEIGHT.

WATER DRAIN CUSHIONS;

Some cushions with specification "**draining cushion charge**" can be made with a special draining foam with open cells therefore with a draining effect for possible water or humidity that could penetrate through the fabric or the sewing. We suggest this solution in case of use completely outdoor for it allows a quick drying and reduces the risk of mildew inside the cushion.
